VARNISHES & PATCHES**

OPTION

Card Lamination Module

The Essential Protection for all your Cards.

Increase the durability and security of your personalized cards.

The Evolis lamination module provides **additional protection for your** graphically personalized and encoded cards.

It protects your printed cards from wear and tear (dust, UV, rubbing, scratching, etc.) and the risks of fraud and forgery. **Increasing their lifespan and security to up to 10 years.**

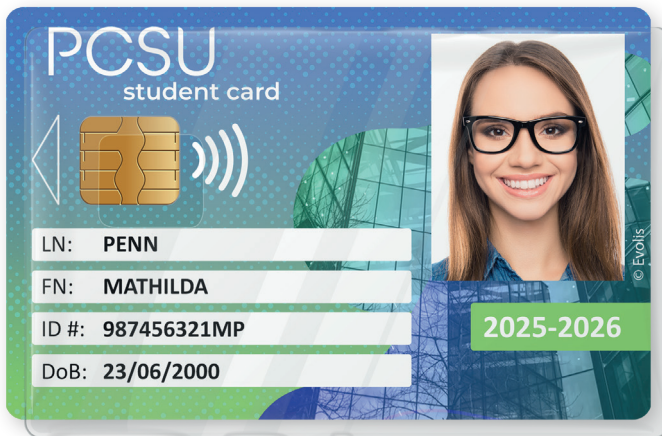

Depending on your needs and desired level of protection, you can choose from various types of films and security elements, which can be combined together.

An easy-to-use solution that is built to last.

The lamination module, like all Evolis products, is developed to offer you the longest possible lifespan.

Installation and use of your lamination module is very simple. It benefits from the software environment developed by Evolis, known for its user-friendly interface and ease of use. It includes an LED panel or LCD screen* for real-time access to notifications.

The lamination module can be used **alone, in conjunction with a card printer, or by installing two modules in a row***.

Features & Benefits

All the details on the features of the card lamination module

High-performance card lamination

- Up to 215 cards per hour*
- Integrated **card flattener**
- **Single-sided** and **double-sided** lamination

Efficient card management

- By combining the lamination module with a card printer, personalization and lamination are carried out in a single pass
- With Agilia: **200-card feeder** and **card-to-card loading**
- With Primacy 2: **100 or 200-card feeder**
- Stand-alone mode: **card-to-card loading**
- 100-card hopper included

Wide choice of films

- **Complete range of high-capacity varnishes and patches**, with or without safety features
- **Generic or customized holograms***
- Laminated to a **thickness of 30 mil**

Intuitive use

- **LED panel** or **LCD screen*** with **QR code** display for user guidance
- Automatic recognition of consumables
- Evolis Premium Suite with optimized user experience on **Windows & Mac***

Multiple configuration options

- One or two lamination modules* **associated with a card printer**. *The lamination module can be added after purchase of the printer.*
- **Stand-alone** laminator module

Lamination module combined with **Primacy 2**

Lamination module combined with **Agilia**

Robust and reliable

- 3-year warranty, 1-year extension available

*optional or depending on configuration

A complete range of consumables

Evolis High Trust consumables guarantee optimum lamination **quality and long life** for your Evolis card lamination module.

With a **wide choice of cards, ribbons, films and cleaning kits**, you're sure to find the right product for your needs.

Customized holograms for even greater security.

In addition to generic holographic films, Evolis can also create **customized holograms** to enhance card security. Several designs can be combined to suit every need. **Available for varnishes** (1,200 prints/roll) **and patches** (600 prints/roll), **from 25 rolls.**

Technical Specifications

GENERAL FEATURES

- Single and double-sided lamination
- Standard built-in card flattener
- Operates while connected to Primacy, Primacy 2, Agilia or in standalone mode

LAMINATION PERFORMANCES

- Single-side: up to 215 cards/hour*
 - Double-side: up to 110 cards/hour*
- Printing and lamination speeds depend on the printer associated with the lamination module.

INTERFACES

- Infrared (no cable): connection kit with Primacy, Primacy 2 or Agilia included
- USB for the CLM in standalone mode (USB cable not provided - reference A5017)

CARD MANAGEMENT AND SPECIFICATIONS

- 100-card feeder (0.76 mm - 30 mil) from Primacy/Primacy 2, optional 200-card feeder from Agilia or Primacy 2
- Hopper capacity: 100 cards (0.76 mm - 30 mil)
- Manual card-to-card issue in stand-alone mode
- Card thickness: 0.76 mm (30 mil)
- Card types: PVC cards, composite PVC cards, cards PET, polycarbonate cards, special varnishes
- Card format : ISO CR80 - ISO 7810 (53.98 mm x 85.60 mm)

DISPLAY

- LEDs with cleaning alerts, ribbon finished/almost finished alerts, and more.
- Optional LCD display on Primacy and Primacy 2

SECURITY

- Space for Kensington® security lock

*Depending on configuration

EVOLIS HIGH TRUST® RIBBONS

To maximize the quality and service life of printed cards and the overall performance of the lamination module, use Evolis High Trust® films.

- Automatic recognition and setting
- Color matching for easy installation
- Films available:
 - Transparent patch (0.5 or 1 mil): 600 prints / roll
 - Holographic patch (0.6 or 1 mil): 600 prints / roll
 - Contact chip cutting patch (0.5 or 1 mil): 600 prints / roll
 - Alternating 1 mil transparent patches (600 prints / roll) with different patch combinations possible: full-card patch / patch with cut-out for magnetic stripe card / patch with cut-out for contact smart card
 - Clear varnish: 1,200 prints / roll
 - Continuous holographic varnish: 1,200 prints / roll
 - Holographic varnishes: 1,200 prints / roll
 - Other films on request
- List of laminating films available at www.evolis.com

ONSITE UPGRADE OPTION

- Installation of a second CLM lamination module to laminate the two sides of the card with two different films, available only with Primacy 2

SOFTWARE

- Evolis Premium Suite for complete management of the lamination module (print drivers, administration and settings, user notifications). Windows and Mac OS* compatible.
- Evolis SDK (Software Development Kit) for complete management and optimal integration into applications and IT systems

WARRANTY

- 3-year warranty
- Warranty extension available as an option
